OVERVIEW

Egypt introduced its citizenship by investment programme in 2020, and it stands apart from the small-island programmes in one obvious way: Egypt is a large, established country of more than 100 million people, with deep history and a substantial property market. For investors who want a second nationality tied to a serious regional player rather than a micro-state, it is a distinctive option.

INVESTMENT ROUTES
Non-Refundable Contribution
USD 250,000

A direct, non-refundable contribution to the Egyptian state — the lowest entry point and the simplest route, with no asset to manage.

Real Estate
USD 300,000

Purchase residential or commercial property, which you keep as an asset. A natural fit for investors who want a tangible holding in a major market.

Bank Deposit or Business
from USD 350,000

Place a qualifying bank deposit or invest in a business in Egypt. Conditions and holding periods apply; we confirm the current terms for each.
